**Rescue Task Force** (RTF) is a San Diego County based non-profit relief agency that responds to natural and man-made disasters world-wide. In addition to local military and military family support through their "Happy Hearts for Hurting Heroes" Back Pack program, RTF delivers volunteer medical and dental teams into the jungles villages of Honduras and has constructed three full service medical and dental clinic facilities deep in the jungles of Honduras' Miskito Coast. RTF also operates fifteen schools for women in Afghanistan.

**Rescue Task Force** has been commended from the floor of the House of Representatives. San Diego County Supervisor Dianne Jacob, in commending RTF's relief work during the 9/11 terrorist attacks on New York City and the Pentagon and our disaster response to fires of 2003, referred to **Rescue Task Force** as San Diego's "Premier relief agency". ## SUPPORT OUR WOUNDED TROOPS

*Our young war wounded service members are rapidly med evaced from the war zone. Their necessary personal items may take weeks or months to catch up with them. Rescue Task Force needs your help to support these injured American heroes that have given so much for our freedom.*

*The average hospital stay is ten months, the average age is twenty, and the commonality is pain. Your dollars go to help these hurting heroes and those sick and injured who support the mission, in their recovery. Together we BUILD A BACK PACK of basic necessities and "Heart Medicine" - entertainment items that remind them that they are not forgotten.*
