

**IMPORTANT BULLETIN**  
**FOR ANYONE SCHEDULED TO TAKE AN ELECTRICIAN CERTIFICATION EXAM IN**  
**SEPTEMBER 2008**

The Governor has placed a stop order to all contracts which will affect the testing of all qualified electricians needing to test for certification. This will affect the testing administration for all qualified electricians who have scheduled to take their certification exam in September 2008.

DAS' contract with Prometric to test qualified electricians in California will stop from September 1, 2008 through September 30, 2008. Any electricians scheduled to take an exam(s) during the month of September 2008 will be rescheduled to a later date (October, November, December). Prometric will be contacting electricians who have scheduled for a September test date to reschedule. Please return your call to Prometric for rescheduling and not the Division of Apprenticeship Standards (DAS).

Electricians who have their eligibilities expire in September 2008 will be extended for 30 days from date of expiration. DAS apologizes for any inconvenience.

DAS will continue to process all applications, but there will be no testing for the month of September.
